

RED-UP

A black and white photograph of a city street at night, featuring a church with two tall spires in the foreground and a bridge in the background. The scene is lit by streetlights and building windows, creating a sense of urban life.

INSPIRATION

Apps Around Us

UBER

We got the functional model from Uber's platform

UBER DRIVERS

Our first idea was create two apps as Uber, one for the providers and other for the costumers

NETFLIX

In the part of the View Manager we took the idea of the Tab Bar Controller

RAPPI

We got the original idea from the "Rappi favores"

OUR APP

MAIN AIM

We know time is money, for that reason we create an app which provides an opportunity of employment while the users use the time they would waste being in a queue in other activities.

CONCEPT DEVELOPMENT

SPENDING TIME

The app is looking for save the user's time

JOB OPPORTUNITIES

It provides a simple and easy way to get an income

SERVICE

We provide the platform in order to have a circular economy with the time and money

DIFFERENT QUEUES

FOOD

ENTERTAINMENT

OTHERS

BANKS

TARGET MARKET

MIDDLE, UPPER MIDDLE AND
HIGH SOCIETY

THEY HAVE SMARTPHONES AND MONEY TO GET THE SERVICE

THANKS!
